Visit LINDAL at ADF Paris 2022

Hamburg, Germany – May 20th, 2022

Join us at ADF Paris

**Booth U30 - Paris Expo,
Porte de Versailles, Paris, France
29th - 30th June 2022**

 LINDAL
GROUP

We are getting ready for one of the most anticipated packaging exhibitions on the calendar, [ADF Paris 2022](#). Postponed from January this year, the show will be taking place on 29th and 30th June, when we will be featuring our most successful and sustainable innovations and showcasing our complete product portfolio.

Located at Booth U30, we will be displaying our award-winning Enhanced Mist Technology, a two-piece insert, compatible with compressed air systems and designed for low VOC and water-based formulations. Our team will also be on hand to discuss our [Mini Engine Platform](#) that offers a smart and flexible way to improve packaging sustainability and get new actuator designs to market quickly.

Another award-winning innovation will also be making an appearance – our patented [Bag-And-Bag technology](#), a packaging system consisting of two internal chambers inside the same can. This makes way for two incompatible formulations dispensable from the same pack, and again is usable with compressed air systems.

Our exhibition team will also be showcasing, twistMist™ – the first twist-activated and propellant-free, continuous dispensing system that offers a reusable and sustainable alternative to the existing aerosol format.

Visitors to our booth will also be able to learn more about [LinRoc I](#) and [LinRoc II](#), two patented systems that dispense thick and highly viscous formulations, such as sealants, fillers and lubricants - ideal for both consumer and industrial markets.

Finally, as well as our dispensing products and innovations, our exhibition team will also be available to demonstrate and discuss with visitors our 3D Aerosol Configurator. An online tool hosted on the LINDAL website, the configurator enables customers to swiftly design 3D aerosol packaging in just a few clicks, significantly cutting out lengthy design processes.

We look forward to meeting all visitors at what promises to be a fantastic show!

About LINDAL Group

LINDAL Group is a worldwide leader in the design, manufacture and sale of valves, actuators and spray caps used in aerosol products. The Hamburg, Germany-based company has more than 60 years of experience with innovative dispensing solutions for the cosmetics, household, pharmaceuticals, food and technical industries.

The LINDAL Group is represented by subsidiaries and licensees in more than 15 countries throughout Europe, Asia and The Americas. The company is renowned for its innovative designs, which deliver optimal functionality and return on investment. As a result, LINDAL packaging solutions are the choice of the world's most prestigious and trusted brands.
