

Press release

LINDAL helps raise the profile of girls rugby with tour sponsorship

Hamburg, Germany – 23rd May, 2024

LINDAL Group's Litec Moulding facility in Ireland came forward to sponsor a local girls' rugby tour which took place in Holland earlier this month.

Spearheaded by LINDAL's Litec injection moulding facility in Ireland, the sponsorship helped cover the costs of trip and competition entry for the 48 players from Ireland's Westport Rugby Football Club taking part in the 4-day tour from 3rd – 6th May.

Held at Nijmegen Rugby Club, home to local Dutch side the Wasps, a series of competitive and fun matches were played between each club's Under 14s, 16s and 18s teams.

Kashif Choudhry, LINDAL's Marketing Manager says: "It's a pleasure to have supported the tour. We believe there is a real synergy between manufacturing and rugby with both worlds dependent on strong teamwork, collaboration and importantly, the involvement and positive impact from women to ensure a successful future."

"Through the sponsorship, we hope we have helped raise the profile of rugby to other young women who may be interested in taking up an inclusive sport that fosters positive attitudes and improved physical and mental well-being in players."

As a women's sport which can often lose players when they reach youth level, gaining sponsorship for the tour came as a welcome gesture to the Westport Club. WRFC President, Liz Brady, says: "We are so grateful to the Lindal Group for its very generous support of the Youths Girls teams' trip to Holland to play rugby, bond as a team, create memories they'll remember forever and cultivate their love of and commitment to their sport."
